MEMORANDUM FOR: Chief, Agency Archives

SUBJECT: OSS Motion Picture Film

1. Reference is made to a letter dated 15 July 1975 offering 167 items of OSS motion picture product to NARS. The remainder of the 250 films reviewed for destruction are currently held at the Agency Archives.

2. These remaining films fall into three categories-- those that must be retained by CIA (List A); those that may be destroyed upon revocation of the current moratorium on destruction of records (List B); and those destined for, but not yet sent, to NARS (List C). Attached are film listings in the above categories.

3. Please transfer the appropriate films to NARS (List C) with a notification of our declassification action. This memorandum is also your authority to destroy the films marked for destruction when the moratorium is lifted.
